Don't get fooled again. Dr. Byram Bridle breaks
down the science where masks are concerned.

Mask are not an effective form of protection from airborne viruses.

They are an effective tool of propagandists, as a mark of compliance.

Experts' urgent 'death' warning to anyone who has had Covid in the last 2 years

Q 136 17 244 Q 835 III 48.1K &

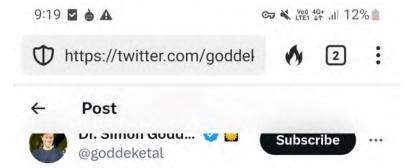

She was found dead by one of her children at 9:30am and ran to a neighbour who called 911.

Another profession with COVID-19 vac mandates

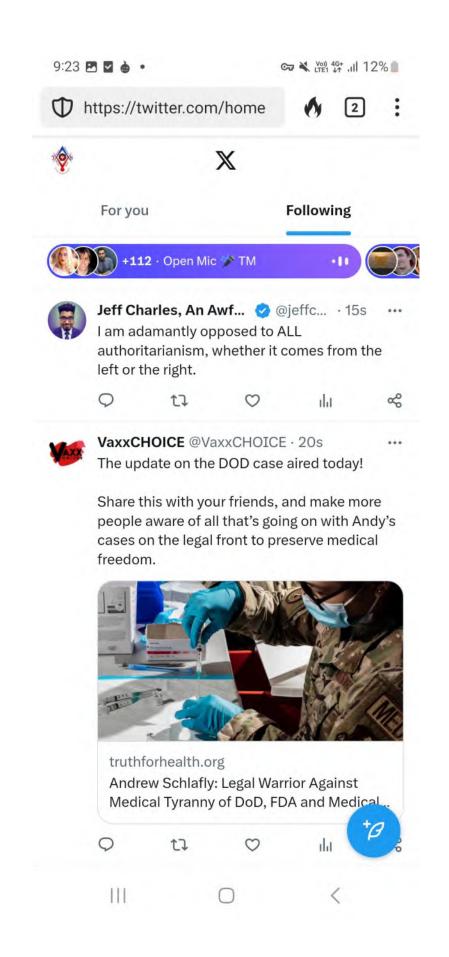

The 'pandemic' exposed the incompetence of many universities and scientific leaders who overlooked fundamental principles of science, leading to dire consequences. To restore the integrity of the scientific community, these individuals should step down and be replaced by those who had the courage to question the pandemic response, as well as the efficacy of masks and vaccines. It's time for a change in leadership and a renewed commitment to evidence-based decision-making. Failing to make these changes would be a disservice to the public and would further erode trust in both public and private research institutions.

"One of the most disturbing elements of MOSIP is its objective of providing infants with a portable, biometrically linked digital ID" at birth or during routine immunization. — Michael Rectenwald, Ph.D.

The Modular Open Source Identity Platform, modeled after India's biometric database, is expanding globally despite controversy over consent and data protections, but privacy advocates warn the Gates Foundation-funded digital ID initiative could enable tracking citizens "from cradle to grave."

Specialists from Russia's agricultural regulator have not detected any traces of radiation in fish samples taken since Japanese authorities dumped stored cooling water from the Fukushima-1 Nuclear Power Plant (NPP) into the Pacific Ocean. In August, 1,272 tests of fish products for main radiological markers were conducted by Russia. This comes after China's General Administration of Customs completely suspended imports of seafood originating in Japan, from August 24 emphasising its concern over the water dump. The Japanese nuclear plant was destroyed in 2011 when powerful tsunami waves caused 3 reactor meltdowns. Watch the video here for more details.

Could Pfizer Vaccine Weaken Kids' Immunity?

Researchers in Australia looking for signs that vaccination against COVID-19 might protect against other infectious diseases found just the opposite. One month after getting Pfizer's vaccine, children experienced a sharp decline in immune proteins, or cytokines, according to a study in Frontiers in Immunology.

Kevin Bass PhD MS ② @kevinnb... · 56m : Elites want to re-impose mask mandates.

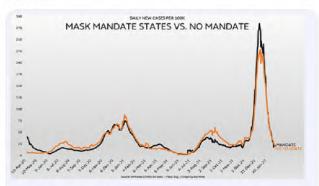

But why?

Mask mandates have repeatedly been shown not to work.

Yet here we are, doubling down.

Further eroding public trust by promoting clearly pseudoscientific policies.

The stupidity of the ruling class boggles the mind.

The black line on the graph shows the weekly rate of Covid cases in states with mask mandates that week, while the orange line shows the rate in states without mandates. As you can see, the trajectories are virtually identical, and if you add up all those numbers, the cumulative rates of Covid cases are virtually identical, too. So are the cumulative rates of Covid mortality (the mortality rate is actually a little lower in the states without mask mandates). Hundreds of millions of Americans dutifully covered their faces in the states with mandates, and the result was the same as in the clinical trials analyzed by Cochrane: the masks made no difference.

Mary Talley Bowden MD liked

Another day has passed where woke people called me a "right-wing, transphobic anti-vaxxer." So, let me clarify a few things:

- Last time I checked, there were only two biological genders.
- I solely use the pronouns that are attributed to the respective biological gender. You're either XX or XY. Deal with it.
- I oppose trans people competing in the opposite gender's competitions (Don't like that? Get your own competition!) or them using their locker rooms, bathrooms, saunas etc.
- I don't care if someone gets offended unintendedly. It's their choice to be offended, not mine.
- I oppose the fact that children are taught that there are trillions of genders and sexual orientations at school and that it's not normal to be "normal".
- I don't talk to people with pronouns, rainbows, Ukraine flags, syringes, or vaccine manufacturers in their profiles.

Ш

O°C @zerodegreesea · 18 Dec 20 All the world knew that the coronavir the so called vaccine were both made by

I feel that this coronavirus may not be so severe. Maybe I have been infected and I have recovered. Although there are so many news reports, are people around you dead? Anyway, the people around me are not dead not even infected. Perhaps this time is a play performed by governments of various countries, with the participation of the Jewish Freemasonry system states. The purpose of the play may be to trick the entire human race into injecting a "vaccine". Of course it is a fake vaccine. No one knows the ingredients. Invented by American companies and Jewish scientists, this liquid cannot be transmitted through the air or contact. It can only be injected in the form of a vaccine. It needs people's cooperation. 80 what can all the people in the world take the initiative to accept this unidentified liquid made in the United States? Inject it into yourself? The solution is to create a global plague and panic. People who think they are infected will lose their minds and grab the life-saving straw. For example, Remdesivir, people rush to inject

To pay low dog learned a field blotecn organization head \ge 3 more at all A contract for 100 million doses of vaccine.

Pfizer and Biotech are expected to apply for emergency licensing in the US later this month. If approved, the companies estimate they could produce as many as 50m doses this year, enough to vaccinate 25 million people, and then as many as 1.3bn doses in 2021.

Apart from cheering the world on, the Greek press is more aware that the heads of Pfizer and Biotech have Greek and Turkish backgrounds.

Pfizer chairman and CEO Albert Bora is a Greek citizen. He was born in the northern Greek city of Thessaloniki in 1961 Jewish parents. In Arizona

BREAKING REPORT: Prince Andrew accused of sexually abusing a 12-YEAR-OLD GIRL AND 10-YEAR-OLD BOY during a visit to Ukraine earlier this year.

TV9 News India reports The Prince was apparently part of the delegation that visited the war-ravaged country during British Foreign Minister James Cleverley's visit.

James Obasi, an official working in a club in Kyiv, says that Prince Andrew had asked him to arrange some food and drink for the two children.

When he returned with food items for the children, he saw that Prince Andrew was behaving in an objectionable manner with the children.

He kept the plate of food and went away from there. When James Obasi returned after some time, he found the children in a

When he returned with food items for the children, he saw that Prince Andrew was behaving in an objectionable manner with the children.

He kept the plate of food and went away from there. When James Obasi returned after some time, he found the children in a critical condition.

There were hardly any clothes on the children's bodies, the children were extremely scared and were crying continuously.

According to Obasi, he tried to take care of the children, but the security personnel took them away with them.

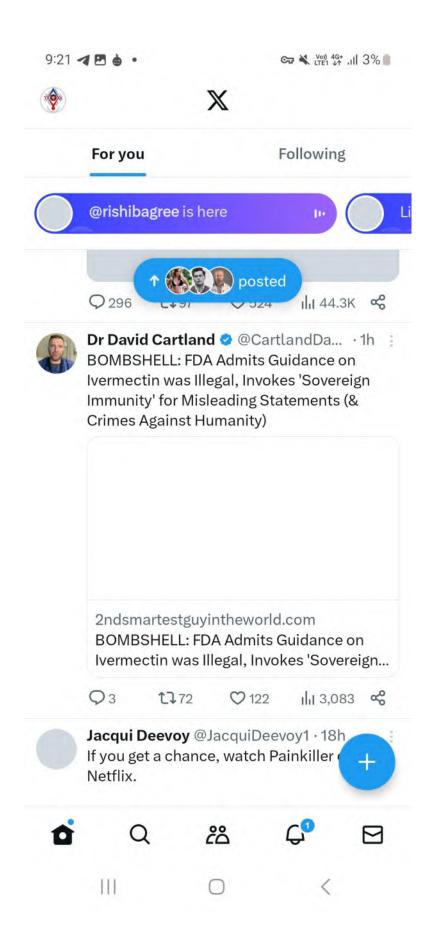

It is alleged that two days later, the children were taken to Paris by a British delegation in a special plane.

Vaccinated & boosted.

34 blood clots.

I took the vaccine I took the Booster, four months later I came down with Covid-19. Since the I have had 34 blood clot. Twenty 6 removed, and the rest being dissolved by Eliques blood thinner which is \$850.00 a month if you don't have really good insurance. A total of \$467,00.00 in medical costs so far. Someone got rich off this BS. NEVER AGAIN!!!

Green movement goes insane with plan to destroy 70 million acres of trees

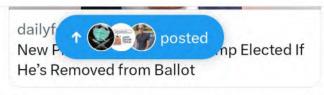

The "green" movement has now completed the cycle of pure insanity with a new plan to clear cut 70 million acres of trees and bury them to fight "climate change."

This nefarious, insane plan is an act of ecological terrorism against the planet and all its inhabitants. And with it, left-wing "environmentalists" are now telling us that trees are BAD and must be destroyed in order to save the planet.

ABSTRACT
Cases of thromboembolic events in 2021 flared up the discussion about the safety of Astra Zeneca's AZD1222 vaccine. We hereby report three cases of pulmonary embolism (PE), one case of extended portal vein thrombosis, and one case of combined portal vein thrombosis and PE within 2 weeks after vaccination with the Astra Zeneca AZD1222 vaccine in a 60-year-old, a 50-year-old, a 33-year-old, a 30-year old, and a 40-year-old male in that year. All patients were healthly before. In three patients, we observed thrombocytopenia and to some extent unusually low antibody levels for the Spike Protein IS-protein), while the other two had normal hombocyte counts. Only one patient had anti-platelet factor 4 (PF4)-antibodies detectable as it has been described in the "heparin-induced thrombocytopenia (HIT)-like" disease of "vaccine-induced prothrombotic immune thrombocytopenia" (VPIT) and we therefore assume that heterogeneous mechanisms led to PE. Therefore, we advise to collect and report more cases, in order to determine the age-related risks of vaccination balanced against the benefits of immunity to SARS-COV-2 for the AZD1222 vaccine in order to gain knowledge for the next pandemic.

Quantitative RT-PCR - Springer

Quantitative competitive (qc) RT-PCR measures the absolute amount (i.e., copy number) of a specific transcript in a sample. Although the amount of product formed is easy to determine, it is difficult to determine the initial copy number of the target molecule because the overall efficiency of the RT-PCR for each sample is unknown, and the kinetics of PCR are nonlinear.

Houman David Hemmati, MD, PhD @ @houmanhemmati

I've been confidentially hearing from several doctors of different specialties that, given the weaker virus and widespread immunity, when their patients have a mild respiratory illness with or without a positive COVID test, they no longer make them cancel their appointments, particularly when their issues/procedures aren't purely elective/ aesthetic. They say they haven't seen any outbreaks of serious illness among staff or other patients and their patients are grateful to be able to see their docs without interruptions. They're always welcome to wear a mask and are encouraged to do so if they show any symptoms. What do you think of this policy?

PFIZER'S FRAU

They hid the inconvenient data

Forensic Analysis of the 38 Subject Deaths in the 6-Month Interim Report of the Pfizer/BioNTech BNT162b2 mRNA Vaccine Clinical Trial

lier . (B. eah Stagns . (Blony Damian . (Brika Delph . (BChris Flo

This report focuses on the 38 trial subjects listed in the Pfizer/BioNTech 6-month Interim Report [8] who died between the start of the trial on July 27, 2020 and March 13, 2021, the data end date of [8] who died between the start of the first on July 22, 2020 and starter 13, 2021, the data et al. when the 6-Month Interim Report. Our analysis revealed important inconsistencies between the subject data listed in the 6-Month Interim Report and the publicly available publications on this data submitted by Pfizer/Bio/NTech to the FDA: Pfizer/Bio/NTech to the Authorization [5], Polack et al. [6], and Thomas et al. [7]. Most alarming, we found evidence of an over 3.7-fold increase in number of deaths due to cardiovascular events in BNT162b2 vaccinated subjects that Pfizer/BioNTecb did not report. Had this information been known at critical time points, it might have been sufficient to question the safety of the BNT162b2 mRNA vaccine, delay EUA approval of

Check out this video from UNICEF using children to brainwash the masses into believing the plandemic won't end until everyone in the world is jabbed. It is also 'interesting' that they use 2025, as that is the year when SPARS aka prions disease is 'supposed' to begin taking its victims. SPARS 2025-2028 is all of their devious excercises together that parallels the timeline we are currently in.

"No one is safe until everyone is safe."

Rishi WEF Sunak once again completely ignoring @ABridgen question on excess mortality.

Please remember that throughout the entirety of Covid you were receiving a 20minute update on deaths & cases.

Now MORE people are consistently DYING than throughout the whole SCAM pandemic - Government & MSM refuse to even bring these terrifying statistics to your attention.

Why do you think this might be?

Post your reply

Who will fact-check the fact-checkers?

The government's response to news of shady foreign money potentially influencing the RMIT-ABC Fact Check partnership is **silence**.

The credibility of 'independent fact checkers' has been destroyed. It's time for the government to abandon its ACMA #Misinformation and #Disinformation Bill, which relies on fact checkers being the arbiters of truth.

Child suffered encephalitis following MMR vaccination. Court confirmed causal link. Ordered compensation - \$3.5 million lumpsum + lifetime annual payments. uscfc.uscourts.gov/sites/default/...

petitioners are entitled to an award as stated in the Proffer. Pursuant to the attached Proffer (Appendix A), the court awards petitioners:

- A. A lump sum payment of \$870,099.19, representing trust seed funds consisting of the present year cost of compensation for facility expenses in Compensation Year 2028 through Compensation Year 2030 (\$613,200.00) and life care expenses in the first year after judgment (\$256,899.19), in the form of a check payable to Regions Bank, as Trustee of the Reversionary Trust established for the benefit of Dev Fisch, as set forth in Appendix A: Items of Compensation for Dov Fisch;
- B. A lump sum payment of \$848,697.87, representing compensation for lost future earnings (\$616,828.82) and pain and suffering (\$231,869.95), in the form of a check payable to petitioners as guardians/conservators of Dov Fisch, for the benefit of Dov Fisch. No payments shall be made until petitioners provide respondent with documentation establishing that they have been appointed as the guardians/conservators of Dov Fisch's estate;
- C. A lump sum payment of \$1,590,163.70, representing compensation for satisfaction of the New York City lien, payable jointly to petitioners and

NYC Human Resources Administration Division of Liens and Recovery P.O. Box 3766 - Church Street Station New York, NY 10008-3786 Tel: (212) 274-5892 Case IDE: 039-94039F

Petitioners agree to endorse this payment to New York City.

D. A lump sum payment of \$237,268.50, representing compensation for satisfaction of the Suffolk County lien, payable jointly to petitioners and;

> County of Suffolk Department of Social Services P.O. Box 18100 Hamppange, NY 11788-8900 Attn: Ms. Patricia Martin Case ID 0: MOORS-4977

I've been asking for a Royal Commission into #COVID for more than 2 years. I am told it's too early.

It's now been 4 years since COVID was first found in #Wuhan and in Italy and sent the world insane. Lock-downs, business closures and job losses, civil rights violations, coerced vaccination contrary to the #NurembergCode. Simply inhuman!

Now we have a "scary" new variant, #Pirola. Medical evidence provided to me by qualified medical practitioners state that it's extremely mild and isn't cause for keeping the COVID scare alive.

I also share the latest research which shows the reason why the "vaccinated" are getting more sick, more often than the unvaccinated, and that this may continue to be an issue for quite some time to come.

The PCR-Test on #SARSCoV2 has not been validated, which is not only medical malpractice, but utterly insane. And for epidemiological purposes it is COMPLETELY WRONG!

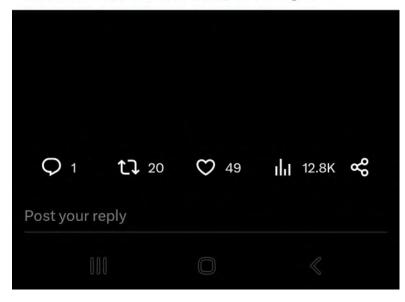

In the latter context you need to check anti-virusantibodies (IgM & IgG) in the blood.

New evidence has emerged that then-Vice President Joe Biden's office colluded with Hunter Biden's business partners.

House Oversight Chair Rep. James Comer is now requesting National Archives to provide complete and unredacted documents related to the Office of the Vice President colluding with the Biden family and their business associates.

Here's just one email example from Dec 4, 2015, provided by House Oversight:

Longtime Biden family business associate, Eric Schwerin, wrote to Kate Bedingfield in the Office of the Vice President. He gave Ms. Bedingfield quotes that the White House could use if the media asked about Hunter Biden's role in Burisma.

That same day, Ms. Bedingfield responded to Mr. Schwerin saying, "VP signed off on this[.]"

Researchers added that, in essence, not only did their investigation prove there was no adverse association between COVID-19 vaccinations and heart attacks, but it also suggested that the vaccinations may provide protective benefits.

"This suggests that being vaccinated against COVID-19 may contribute to a lower risk of fatal outcomes subsequent to a heart attack," stated Dr Mohit D Gupta, lead researcher of the study.

I knew and Fauci didn't??? Lockdowns hurt more people than Covid ever did.

Afshine Emrani

Sep 8, 2020 · 3

I just signed two death certificates this morning. The first two deaths in my practice since the beginning of the pandemic. One patient had severe heart disease and was told has months to live when I met him in 2008. He was 88! The other was a lady with emphysema and she was 85. Neither of them died of COVID. They died in their sleep. But, they had become severely deconditioned and depressed and given up the will to live since the lockdowns started. It is my strong belief that our response to the pandemic will end up killing more people than the virus itself. We overestimate the power of COVID and underestimate the disastrous damages of the lockdowns. Read the last sentence ag

Fascinating. This person asked ChatGPT about the central piece of my claim re: mRNA vaccines and autoimmunity. The AI had no trouble. Human cells expressing foreign protein are targeted by the immune system. Why don't the folks at Pfizer see the obvious connection to myocarditis?

📆 River Parrish 🤣 @RiverParrish1 · 18h Replying to @BretWeinstein

Thought you'd be interested in this exchange with ChatGPT:

(Remember folks, the mRNA is transcribed by cells into foreign protein...

Does the human immune system attack human cells when they are expressing a foreign protein?

The human immune system is highly complex and designed to distinguish between "self" and "non-self" entities. It primarily targets pathogens like bacteria, viruses, and other foreign substances. However, there are situations where human cells expressing foreign proteins can become targets of the immune system:

Foreign Protein Expression:

Viral Infections: When a cell is infected by a virus, it can produce viral proteins. These proteins may be presented on the cell surface, making the cell a target for immune cells like cytotoxic T-lymphocytes (CTLs).

- 2. Cancer Cells: Some cancer cells express abnormal proteins or overexpress certain proteins that can be recognized as foreign by the immune system.
- 3. Gene Therapy: In cases where gene therapy is used to produce a beneficial foreign protein, there is potential for the immune system to recognize these cells as foreign and target them, although this is generally an undesired side effect and steps are taken to minimize this risk.

Financial market website Zero Hedge knocked off Twitter over coronavirus story

By Reuters Staff 2 MIN READ # 9

Feb 2 (Reuters) - Twitter Inc has banned financial market website Zero Hedge from the social media platform after it published an article linking a Chinese scientist to the outbreak of the fast-spreading coronavirus last week.

The Washington Post

5th Circuit finds Biden White House, CDC violated First Amendment

The Court upheld many restrictions on the White House and Surgeon General's office's contacts with tech companies, finding that they 'coerced' platforms' content decisions

By Cat Zakrzewski

nber 8, 2023 at 7:38 p.m. EDT Published September 8, 2023 at 6:58 p.m. EDT

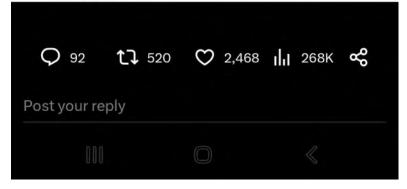

☐ Save

The 5th Circuit U.S. Court of Appeals on Friday ruled that the Biden White House, top government health officials and the FBI likely violated the First Amendment by improperly influencing tech companies' decisions to remove or suppress posts on covid-19 and elections.

The decision is largely a victory for conservatives who've long argued that social media platforms' content moderation efforts restrict their free speech rights.

111 <

Synopsis:[3] The comic book fans discover a global conspiracy. The comic book contains clues of future events because it is written by one of the architects of a plan designed to prevent ecological disaster as the Earth's opulation rises and resources are depleted. The plan consists of: (1) Convincing the world's population that there is an outbreak of a deadly new virus, (2) Once convinced of the narrative of the faux-pandemic, announce to the public the creation of a new vaccine, (3) Through the coordination between global elites and nongovernmental organizations, governments move quickly to inject the world's population with this "vaccine". (4) Once the population is injected, it turns out that the vaccine is designed to sterilize almost all of those people that take it, causing the global population to drop from 7.8 billion to about 500 million, and ushering in a new era of plenty.

The magic bullet theory is now dead. This preposterous construction has served as the mainstay of the theory that a single shooter murdered President Kennedy since the Warren Commission advanced it 60 years ago under the direction of the former CIA Director Allen Dulles whom my uncle fired. The recent revelations by JFK's Secret Service protector Paul Landis have prompted even the New York Times-among the last lonely defenders of the Warren Report-to finally acknowledge its absurdity.

Brandon Gilles Obituary: What Happened to Electrical Engineer and Spatial AI Pioneer?

August 12, 2023 by Mani Verma

Brandon Gilles Obituary, and Death Cause:- Brandon Gilles, the co-founder and CEO of Luxonis, a company that specializes in spatial AI and computer vision technology, passed away on August 3, 2023, at the age of 37. He had been suffering from Long-COVID, a condition that causes persistent symptoms after a COVID-19 infection, for more than three years. His wife, Briana Gilles, confirmed the news of his death on social media, saying that he had worked harder than anyone to try and save his own life.

Hey, @elonmusk!

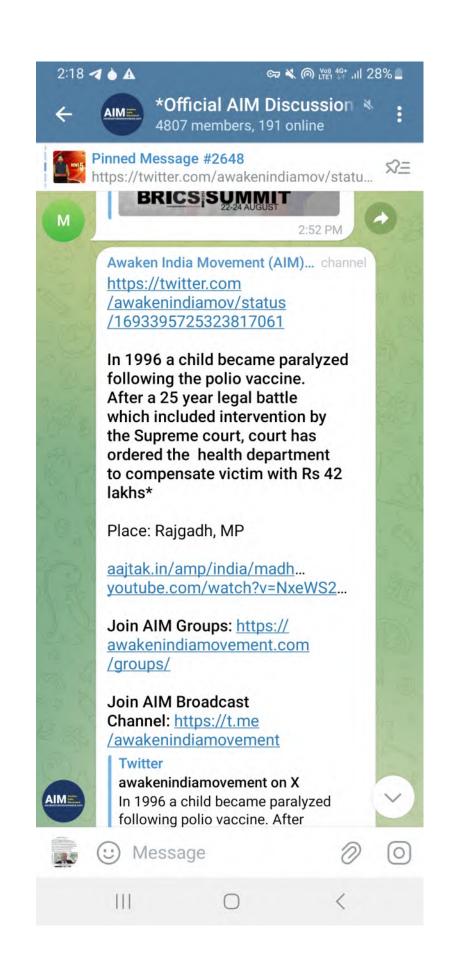

Do the 14k retweets and 31k likes not prove that more than 657k people would like to see this?

Free speech must imply free reach! For the sake of humanity, please put your money where your mouth is and lift all 'going viral bans' on everybody who abides by the law like me - thanks!

vaccinations

J Reusch et al. Public Health. 2023 Sep.

Results: Among 1704 HCWs enrolled, 595 (34.9%) HCWs were on sick leave following at least one COVID-19 vaccination, leading to a total number of 1550 sick days. Both the absolute sick days and the rate of HCWs on sick leave significantly increased with each

subsequent vaccination. Comparing BNT162b2mRNA and mRNA-1273, the difference in sick leave was not significant after the second dose, but mRNA-1273 induced a significantly longer and more frequent sick leave after the third.

Conclusion: In the light of further COVID-19 infection waves and booster vaccinations, there is a risk of additional staff shortages due to postvaccination inability to work, which could negatively impact the already strained healthcare system and leopardise patient care. These findings will aid further vaccination campaigns to minimise the impact of staff absences on the healthcare system.

Doesn't get any more get more dystopian than that. Moderna is sponsoring the US Open where the winning athlete was previously banned from the same competition for refusing their vaccines.

I can't take much more of the absurdity. These corporations have caused so much death and harm, and because they have no legal liability for their products and have made crazy money from mandates via governments that were paid for by tax payer, they can still pay millions to sponsor huge events like this in effort of getting more people to take that very same product that's harming and killing them.

It's banana republic levels of crazy and everyone should be horrified by it, but it's just a regular thing now and it's like they're trying to make us numb to it, which is what's most concerning honestly. Feels like things are about to pop off.

Maui was really bad....and I think they wanted to send that message to us on

Sharp rise in viral load, doctors ask to mask up

Many Clinics In City Enforcing Masks Again

Amrita.Didyala @timesgroup.com

Hyderabad: The sharp rise in cases of viral fever in the city has led many doctors to bring back the mask mandate at their clinics — both for patients and staff. Explaining how these influenza-like illnesses (ILI) spread rapidly, they say masking is the only way to protect oneself from it. Usually seen in circulation during this time of the year, these ILIs are caused by respiratory viruses, doctors add.

According to rough estimates, cases of fever, cough, cold and malaise (they fall under the ILI category) have doubled in the last few weeks in most private hospitals. Government hospitals too are recording a daily out-patient footfall of 200 to 300 patients with these symptoms every day In fact, at the state-run fever hospital, the daily numbers have crossed 600 — a jump of 200 over last month's figures.

"I have made it compulsory for staff, patients and attendants to wear masks. Since there are a lot of viruses circulating during this time of the year, the best way to keep away from respiratory viruses is by wearing a mask

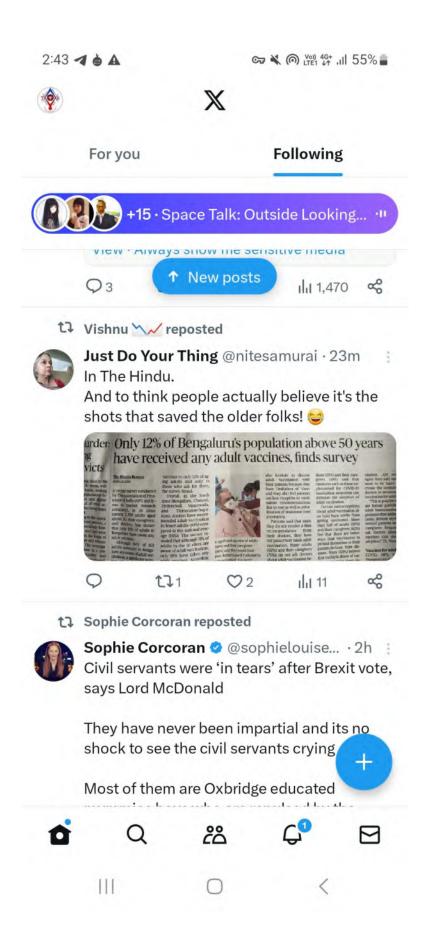

and avoiding crowded places — including using lifts," said Dr Rahul Agarwal, infectious diseases expert and head of department of medicine, Care Hospitals. He added: "Crowded places with little to no ventilation are bound to have suspended droplets which can enter the body through the mouth or nose. A simple cloth or a surgical mask is enough for the time being."

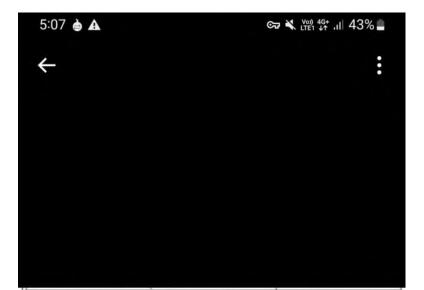

According to him, the number of people walking in with complaints of cough and cold has gone up from five per day until a fortnight ago to 10 per day now.

Similarly, Dr Rajesh Vuk-

kala, consultant internal medicine. Medicover Hosptials has also mandated masks for all patients coming with typical symptoms of ILI. "Whatever measures we were taking for Covid-19 will work well for these viruses a well, reducing the spread of the disease. About 90% of the patients coming to us had travelled im-mediately before reporting symptoms, which shows that travelling and mingling is increasing the spread. Also, since the time taken to recover is longer now given our lower immunity levels post pandemic, avoiding crowds, masking up, and sanitising periodically will help," he said.

Elon Musk: Climate change will not end the world as is being propagated

Brendan Taylor ② September 11, 2023 8:30 am

During the recent G20 Summit, member nations emphasized the need for intensified efforts in combating climate change. Elon Musk, CEO of Tesla and SpaceX, countered the prevailing narrative by stating that climate change will not lead to the world's demise, as some assert.

Reacting to a follower who posted that 14-year-olds are being told climate change is going to end the

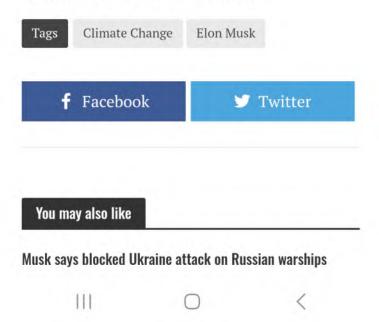

Insider Paper

Q

Musk had previously faced criticism from the scientific and agricultural communities for his assertion that farming has a negligible impact on climate change.

In June this year, Musk posted: "Overwhelmingly, the risk of climate change is due to moving billions of tons of carbon from deep underground into the atmosphere". "Over time, if we keep doing this, the chemical makeup of our atmosphere will change enough to induce meaningful climate change".

The G20 Summit in New Delhi concluded with participating nations pledging to expedite their actions in response to environmental crises, particularly climate change. Additionally, they reaffirmed their commitment to achieving global net zero greenhouse gas emissions and carbon neutrality by or around mid-century.

FDA APPROVES NEW COVID VACCINE: The people who took the initial Covid injection had no idea that they were signing up for a subscription service.

Their immune systems are destroyed, and the shot did nothing to protect them- it only made them sicker and accelerated their current ailments.

With the "new and improved "Covid vaccine, it's never been more obvious than it is now that they are simply trying to finish the job and kill us all.

BREAKING: C.I.A CONFIRMS COVID LEAKED FROM WUHAN LAB | EXPOSES C.I.A BRIBE!

A CIA whistleblower told Congress that the agency offered officials on a team investigating COVID-19 origins "significant monetary incentive" to change their position FROM 'Covid originated out of a leak from the Wuhan lab' TO "Unable to determine" the origins.

Here's what they said:

"According to the whistleblower, at the end of its review, six of the seven members of the Team believed that intelligence and science were sufficient to make a low confidence assessment that COVID-19 originated from a laboratory in Wuhan, China."

"The seventh member of the Team, who also happened to be the most senior, was the one officer to believe Covid originated through zoonosis."

Post your reply

← Post

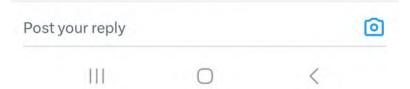

So:

- 1. Covid leaks from a Chinese lab
- 2. The US also funded this lab
- **3.** US agencies worked with medical professionals and Chinese counterparties to lie to the WORLD
- 4. Media globally censors the truth
- **5.** The world calls the truth a 'conspiracy theory'

And we should be OK with it? Is this the new world we live in??

Here's a few... Show more

"Take the red pill"

"The coronavirus panic is dumb," Musk tweeted. It was March 6, 2020, and COVID had just shut down his new factory in Shanghai and begun to spread in the U.S. That was decimating Tesla's stock price, but it was not just the financial hit that upset Musk. The government-imposed mandates, in China and then California, inflamed his anti-authority streak.

When California issued a stay-at-home order later in March, just when the Fremont factory was starting to produce the Model Y, he became defiant. The factory would remain open. He wrote in a company-wide email, "I'd like to be super clear that if you feel the slightest bit ill or even uncomfortable, please do not feel obligated to come to work," but then he added, "I will personally be at work. My frank opinion remains that the harm from the coronavirus panic far exceeds that of the virus itself."

After county officials threatened to force the plant to shut down, Musk filed suit against the orders. "If somebody wants to stay in their house, that's great," Musk said. "But to say that they cannot leave their house, and they will be arrested if they do, this is fascist. This is not democratic. This is not freedom. Give people back their goddamn freedom." He kept the plant open and challenged the county sheriff to make arrests. "I will be on the line with everyone else," he tweeted. "If anyone is arrested, I ask that it only be me."

- -- The Left And Group Psychosis --
- -- What Is Mass Formation Psychosis? --

The world is watching the psychological destabilization of the western civilization. Social issues and basic understandings of basic life decisions, that previously were of little issue to deal with together as a society, have now become points of great divide and contention.

Our political environment has become exceptionally oppositional and combative. Discourse has been reduced to such trivial levels, the outcome being that anything we are "for", they are "against" and vice versa. The resulting positioning is that there must be no issue that there be overlap of agreement. Any who are unfortunate enough to voice any idea or point of view that is agreed upon with the other side, will find themselves unceremoniously ostracized from the group.

More so, the cult of personality has become compulsive, as well as compulsory. Group think is the

Digital Security on Twitter: Advice for those in conflict zones or other high-risk areas

When using Twitter in conflict zones or other high-risk areas, it is particularly important to be aware of how you can protect your account and digital information. While every situation is different, you can improve the general security of your Twitter account and manage its visibility in a few steps. Navigating account settings is critical for human rights activists, journalists and others facing digital security threats. With the evolving situation in Afghanistan, Twitter has translated relevant Help Center articles into local languages.

Account security

Ш

Experts suggest using a strong password that you don't reuse on other websites along with two-factor authentication to protect your account. It is also best practice to set up your account to require both an email address an phone number to reset your password. If yo concerned about being identified as the oper of the account. You may consider using a virtual

Digital Security on Twitt...

certice articles into rocar languages.

Account security

Experts suggest using a strong password that you don't reuse on other websites along with two-factor authentication to protect your account. It is also best practice to set up your account to require both an email address and a phone number to reset your password. If you are concerned about being identified as the operator of the account, you may consider using a virtual phone service for the purpose of authentication.

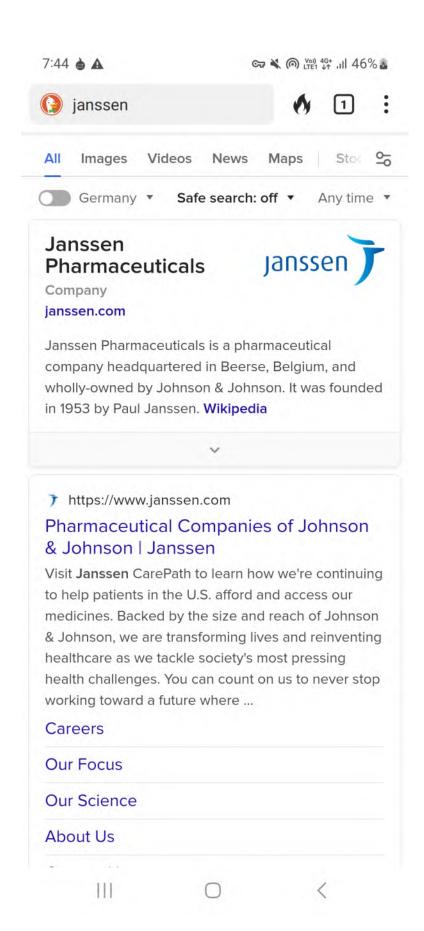

Make sure you're on Twitter.com before you enter your login information and never give your username or password out to third parties. For general security hygiene, exercise caution before clicking on links sent to you over DM or email, regardless of source. Finally, make sure your computer software, including your browser, is up-to-date and regularly check to see if your account has been compromised. (See below under "Help with a compromised account" for signs of potential compromise.)

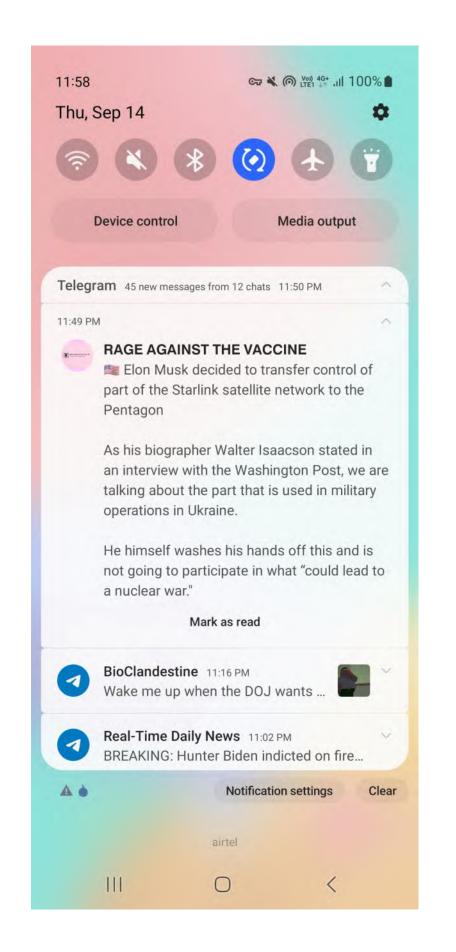

How to use two-factor authentication

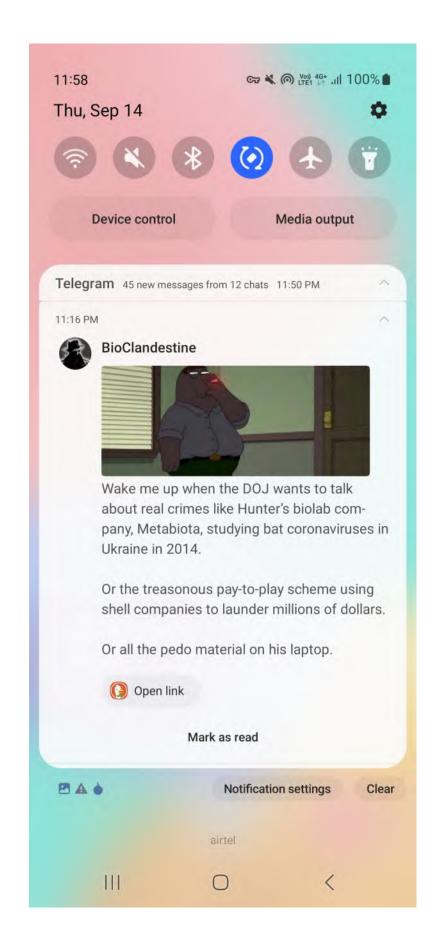

Two-factor authentication is an extra layer of security for your Twitter account. Instead of only entering a password to log in, you'll also enter a code generated by a device in your possession or use a security key that you physically have. The additional step can be accomplished withouse of your personal phone number and help make sure that you, and only you, can access your

Professor who claims vaccines linked to autism funded through university portal

Chris Exley, who says aluminium in vaccines may cause autism, has raised more than £22,000

Patrick Greenfield

y @pgreenfielduk Sat 1 Jun 2019 07.00 BST

A British professor who has claimed that aluminium in vaccines is linked to autism has raised more than £22,000 to support his work through a Keele University online donations portal, the Guardian can reveal.

Prof Chris Exley angered health experts for claiming that tiny amounts of aluminium in inactivated vaccines, such as the HPV and whooping cough inoculations, may cause "the more severe and disabling form of autism".

111

In 2017, the professor of bioinorganic chemistry published a paper on aluminium found in the brain tissue of five autistic nationts that has been

1 million mRNA Covid shots for teens prevent

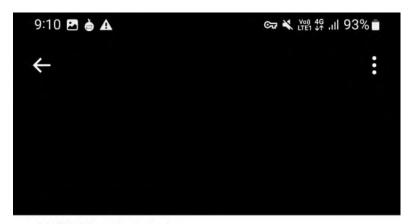

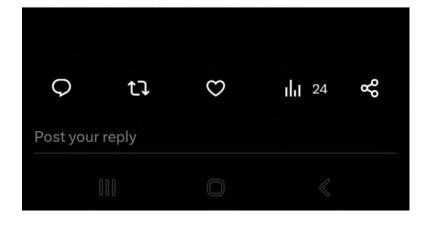

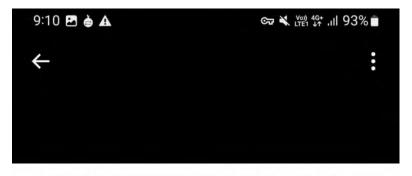

ADVAC's partners

In addition to the contributions from the University of Geneva and the Mérieux Foundation, ADVAC would not be possible without the longstanding support of the following co-sponsors:

- Bill & Melinda Gates Foundation
- Centers for Disease Control and Prevention (CDC)
- Coalition for Epidemic Preparedness Innovations (CEPI)
- European Centre for Disease Prevention and Control (ECDC)
- European & Developing Countries Clinical Trials Partnership (EDCTP)
- · European Society for Paediatric Infectious Diseases (ESPID)
- Johns Hopkins Bloomberg School of Public Health
- National Foundation for Infectious Diseases (NFID)
- National Institutes of Health (NIH/NIAID-USA)
- · Fogarty International Center
- World Health Organization (WHO)

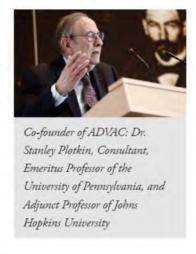

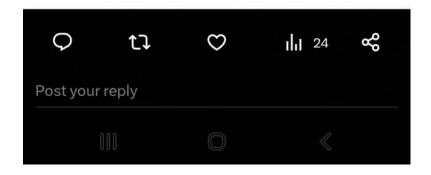

Unrestricted education grants are provided by the Coalition for Epidemic Preparedness Innovations, GlaxoSmithKline, Janssen, Merck, Pfizer, Sanofi Pasteur, the Serum Institute of India, and Takeda.

Course origins

Dr. Stanley Plotkin, first approached Dr. Charles Mérieux, founder of the Mérieux Foundation, with the idea for a course for scientists and decisionmakers involved in vaccine development or in policy decisions related to vaccines. Acutely aware of the profound societal impact and implications of vaccination, Dr. Mérieux decided to help develop the course. He gave it a home at Les Pensières, where the concept of vaccinology had been created, during a discussion between Charles Mérieux and Jonas Salk, inventor of the first polio vaccine.

EXCLUSIVE: Health Canada Not Concerned About Scientists' Finding of Plasmid DNA **Contamination in COVID Shots**

By Matthew Horwood and Noé Chartier Updated: 8/25/202

After two scientists independently raised red flags about an inordinate amount of plasmid DNA in the COVID-19 mRNA shotswhich they say could potentially alter the human genome—Health Canada did not express concern with the findings, given the testing data provided by the manufacturers.

"Health Canada was aware of the presence of residual plasmid DNA as a process-related impurity during review and prior to the authorization of the mRNA COVID-19 vaccines," the agency said in an email to The Epoch Times.

Plasmid DNA is used in the manufacturing of mRNA vaccines and is supposed to be removed to a level below a threshold set by health regulatory agencies before the final product is released for

As a vet, 100 should know petter put I guess all that money from #Ukraine, clouds your judgement!

#FUkraine

#MagaVeteran

I wrote to President Biden with my colleagues and urged him to provide Ukraine with the missiles its military needs to win. Not doing so will only prolong the war and cost lives.

United States Senate

September 16, 2023

President Joseph R. Biden The White House 1600 Pennsylvania Avenue, NW Washington, D.C. 20500

For many months, Ukrainian officials have stated the need for ATACMS to fill a critical gap in long-range res capability. Providing ATACMS would enable Ukraine to strike key Russian logistics and communications regists as well as crinice missile and ofmen launch kines within Russian-occupied Ukraine. In particular, the longerange unitary workned variant of ATACMS should be sent without delay. The recent Ukrainian strike on Swatzepol aval port using the British Shoren Shadow long-range weepon demonstrated the hattefield effectiveness of such expons. Providing these weapons to Ukraine would maximize the likelihood of success in its current contextedfirance and follow-on operations. ATACMS could also augment Ukinair's ability to destroy Russian

The U.S. is fully capable of providing these weapons without any appreciable risk to its own combat ity. Ukraine has significantly degraded Russian combat power and only requires a small portion of our ded ATACMS. Further, the U.S. has the capability to produce hundreds of ATACMS and Precision Strike is a year and replenish its inventory in the near term.

MUST WATCH: Cancer Genomics Expert Dr. Phillip Buckhaults Testifies to the SC Senate on the DNA Contamination Found in mRNA COVID Vaccines

"The Pfizer vaccine is contaminated with plasmid DNA, it's not just mRNA...I'm kind of alarmed about the possible consequences of this...It could be causing some of the rare, but serious, side effects like death from cardiac arrest...This DNA can and likely will integrate into the genomic DNA of cells that got transfected with the vaccine mix...It's different from RNA because it can be permanent...It could cause theoretically...a sustained autoimmune attack towards that tissue. It's also a very real theoretical risk of future cancer in some people...There's probably about 200 billion pieces of this plasmid DNA in each dose of the vaccine...This is a bad idea."

Undeniable Severe Injuries After HPV Vaccination

The HPV Vaccine: A Golden Shield or a Double-Edged Sword? (Part 2)

A collection of documented evidence is presented for serious injuries associated with Gardasil. Their existence is undeniable.

Sanjay "John" and No Rulers. No Masters.
 Overtake the Oligarchy liked

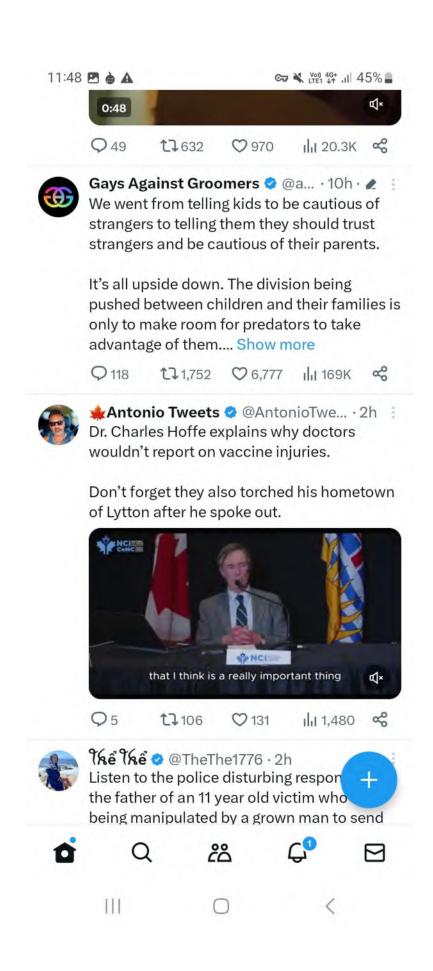

"On May 26, 2022, Paula received her first HPV vaccination. On June 25, she called her father at 10:25 a.m., crying at a bus stop and needing him to quickly come to get her—she could no longer feel her legs.

The damage has been officially recognized by authorities as caused by the HPV vaccine. Paula receives a monthly payment from welfare. Her inability to walk is likely caused by the severe attack of immune cells on the myelin layer of the spinal cord, which is an autoimmune response.

Paula is not a single case—she may even be the tip of the iceberg. There are numerous cases of disabilities, including an inability to walk or to see, following Gardasil injection."

🚨 🚨 🖳 US Military Officials met with CDC...COVID-19 injection injuries...myocarditis....."The CDC met with military officials twice behind closed doors in April 2021. Military officials presented data during at least one of the meetings to the CDC. That presentation, which has never been released to the public, "included our preliminary patient data and analysis that suggested to us that myocarditis was indeed a possible side effect to the messenger RNA COVID-19 vaccines (within the US military)," Dr. Jay Montgomery, one of the presenters, told The Epoch Times via email." When did DOD know about these adverse effects?

"Even after deaths from myocarditis—inflammation of the heart—were reported, and myocarditis was designated as a likely side effect of the shots, U.S. officials kept recommending vaccination for virtually the entire populace."

Chris Pavlovski Chief Executive Officer Rumble

By email

20 September 2023

Dear Chris,

I am writing concerning the serious allegations regarding Russell Brand, in the context of his being a content provider on Rumble with more than $1.4 \mathrm{\ million\ followers}$.

The Culture, Media and Sport Committee is raising questions with the broadcasters and production companies who previously employed Mr Brand to examine both the culture of the industry in the past and whether that culture still prevails today.

However, we are also looking at his use of social media, including on Rumble where he issued his pre-emptive response to the accusations made against him by The Sunday Times and Channel 4's Dispatches. While we recognise that Rumble is not the creator of the content published by Mr Brand, we are concerned that he may be able to profit from his content on the platform.

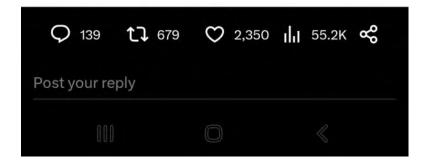

We would be grateful if you could confirm whether Mr Brand is able to monetise his content, including his videos relating to the serious accusations against him. If so, we would like to know whether Rumble intends to join YouTube in suspending Mr Brand's ability to earn money on the platform.

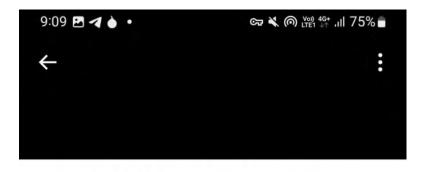

We would also like to know what Rumble is doing to ensure that creators are not able to use the platform to undermine the welfare of victims of inappropriate and potentially illegal behaviour.

Yours sincerely,

Dame Caroline Dinenage DBE MP

Chair, Culture, Media and Sport Committee

Well, a new study proves they LIED. "Vaccine" mRNA has been found in breast milk — and babies are being harmed because of it.

Summary

Background

COVID-19 mRNA vaccines play a vital role in the fight against SARS-CoV-2 infection. However, lactating women have been largely excluded from most vaccine clinical trials. As a result, limited research has been conducted on the systemic distribution of vaccine mRNA during lactation and whether it is excreted in human breast milk (BM). Here, we evaluated if COVID-19 vaccine mRNA is detectable in BM after maternal vaccination and determined its potential translational activity.

Methods

We collected BM samples from 13 lactating, healthy, post-partum women before and after COVID-19 mRNA vaccination. Vaccine mRNA in whole BM and BM extracellular vesicles (EVs)

Authorities Say He Died Of Old Age, Comorbidities

Agra: A senior doctor who owns a private hospital in Agra district died seven days after he was ad-

a private hospital in Agra district died seven days after he was administered the Covid-19 vaccine. Dr Kishan Nathani (77), MD (internal medicine), who was also suffering from Parkinson's and diabetes, died in the early hours of February 4.

Agra district Covid-19 vaccination in-charge Dr Sanjeev Burman said Nathani passed away due to old age and comorbidities. His death had nothing to do with the vaccination, he added. The decreased's son, Dr Purset Nathani, who is a doctor himself, told TOI that he had alerted the district health department about his father suffering from an adverse event after being administered the Covid vaccine but no action was taken.

"My father was vaccinated on

was taken.
"My father was vaccinated on January 28. Hours later; he com-plained of a loss of appetite. On January 30, he had a severely low heart rate and blood pressure. He

Dr Kishan Nathani

Dr Kishan Nathani
was put on temporary pacemaker
and shiffed to a private hospital in
Ghaziabad, where he slipped into
coma. Though he had no history
of kidney or heart disease, he suffered a renal shutdown with signs
of prevenal fallure, suggesting
kidney failure due to secondary
causes and not primary kidney
disease. I had informed local autherities about his death, but no
post-mortem examination was
conducted.

Dr Puneet claimed that his father was living a normal life before vaccination. "He was suffering from Parkison's disease and
diabetes for the past several
diabetes for the past several
years. The twodiseases cannot result in death within a period of
one week. I have previous lab re
ports to show that he was not suffering any cardiac or kidney-re-

my father's death on Covid-19 vac-cine. But this happened immedi-ately after vaccination. I think this should not be ignored in the larger public interest. Lives of people having prevalent comor-bidities like diabetes and Parkinpeople having prevalent comorbidities like diabetes and Parkinson's disease are at stake and that warrants thorough investigation." DrSanjay Chaturvedi, IMA secretary of Agra district, said, "There is a serious lapse of standard operating procedure in case of adverse events following immunization. The local authorities should have ensured a postmortem examination to investigate the matter indetail."

District magistrate Prabhu Ninghsaid. "The death of a senior doctor after Covid-19 vaccination has been reported to the health ministry Vaccination is not the cause of death. I was told by the health department officials that the deceased was suffering from comorbidity. The required investigation will be conducted in the entire matter.

India has reported 22 deaths so far following vaccination, though none of these are attributed to the Covid-19 vaccine itself, the health ministry said in a briefing on Friday.

INFLUENZA EPIDEMIC.

TREATMENT WITH MERCURY HAS
BRILLIANT RESULTS.

("The Times.")

It is reported by the Athens correspondent of "The Times" that mercurial treatment has been tried on influenza patients with brilliant results.

STREPTOCOCCUS.

BLOOD-POISONING GERM IN INFLUENZA.

REPORTED TREATMENT.

According to "The Times" a Viennese, Dr. Leitner, in a letter dealing with influenza, declares that the streptococci, which seems to be the cause of the major part of the gravest complications, could be destroyed by using injections of perchloride of mercury.

Ut the 22 cases of pulmonary inflammation so treated, none, it is stated, was fatal, and the mortality decreased from 80 per cent. to zero.

in a political newspaper of Rome recently such treatment was counselled by Dr. Nactesi as being very effective, especially in the septicaemic forms of influenza. Its value in the pulmonary forms appears to have been established, also by statistics for other foreign clinics.

Professor Mifsud is reported to have used similar treatment in diverse cases of influenza -the broncho-pulmonary form-with very

satisfactory results.

STILL BELIEVE SOMEONE CAN GIVE YOU THE FLU?

The landmark study of Milton J. Rosenau, MD, "Experiments to Determine Mode of Spread of Influenza," was published in the Journal of the American Medical Association in 1919.

- · They isolated microbial mixtures from the throat and noses of carefully selected influenza cases from an outbreak location. The researchers then administered these to 10 young U.S. navy volunteers without prior exposure to influenza. None fell sick.
- · They drew blood from influenza patients and transferred it to the navy volunteers. None fell sick.
- · They collected influenza patients' mucous membranes with swabs and filtered them to exclude larger microbes like bacteria. They then injected the filtrate into the navy volunteers. None fell sick.
- · They brought the navy volunteers to meet influenza patients. They shook hands and conversed. The patients also exhaled (as hard as possible) onto the volunteers' face for five times. Then the patients cough directly onto the volunteers. None fell sick.

RFK JR - The Chickenpox Vaccine Causes shingles Epidemics Later On

"When the CDC was thinking about mandating the chickenpox vaccine for your children, they did a study.

The person they hired to do that study was a scientist named Gary Goldman, who did a long-term study in California.

What he found is that if you give the chickenpox vaccine, mass vaccinate, it stops chickenpox, but causes shingle epidemics later on; which is 20x deadlier.

Despite those studies, we mandated for American children in this country, but in Europe they don't.

If you go to the British National Health Service website right now, you can read that it will say, "We do not recommend chickenpox vaccines because it causes shingles epidemics later on... and that's the

Over the past weeks, Yale has received a surge in reports of masturbation-related conflicts, particularly between first-year suitemates. As a measure to address this issue, Yale Health has provided each college laundry room and first year dorm entryway with resources to manage these conflicts and promote healthy communication between suitemates and roommates about self-pleasure. Please make ample use of the masturbation door signs provided to notify roommates about in-progress masturbation. Follow these expert tips for navigating masturbation in your day-to-day life.

- Always communicate Make sure you and your roommate are on the same page about your masturbation schedules. Have regular check-ins to ensure you're both comfortable with the arrangement
- Practice good sexual health Just because you don't have a partner doesn't mean there are no risks associated with self-administered sex. Make sure all dildos and other sex toys are washed after each use. Use plenty of lube to avoid injury during your sessions.
- Don't judge Your roommate has just as much of a right to masturbate as you do! It's your job to help them feel safe and secure while masturbating.
- Remember to relax and have fun! Self-pleasure should be just that pleasurable! Navigating masturbation with a roommate can be tricky, but if you practice proper communication and safety, you can attain a deeply fulfilling masturbatory life.

Do your part to keep yourself and our community safe!

Dr. McCullough: Don't Be Fooled by the Next Big COVID Lie

Lie #1 - There's no early treatment for COVID-19. We should lock down and be fearful.

Lie #2 - The vaccines are "safe and effective."

Lie #3 - This wave of excess deaths we're seeing — this "died suddenly" phenomenon. That's due to the long-term effects of COVID-19, not the vaccine.

"Don't fall for the false narrative," Dr. @P_McCulloughMD warned.

"The medical literature at this point in time is compelling ... The vaccines are causing this enormous wave of illness."

merck (see more below), not by the FDA.

Another example is rosiglitazone (Avandia), a diabetes drug [2]. It also increases the risk of thrombosis and was taken off the market in Europe but not in the United States. The story about this drug was summarised in an editorial in *The Lancet* as one of "death, greed, and corruption". Fraud was also an issue. In 1999, the company, then known as SmithKline Beecham, completed a trial that found more cardiac problems with rosiglitazone than with pioglitazone, but stated in an internal email that "These data should not see the light of day to anyone outside of GSK [GlaxoSmithKline]."[6] Instead of publishing the trial's results, GSK spent the next 11 years trying to cover them up.

The industry is not effectively regulated, and drug regulators indulge in protracted and amicable negotiations with the industry, instead of acting promptly when there is a danger to public health. This explains why the culture within the FDA has been described as one of intimidation and fear and overly industry friendly. I give some examples below.

The FDA has accepted safety data it knew were fraudulent, and — on many occasions — data that clearly showed the drug was not safe [2]. It approved telithromycin (Ketek), an antibiotic that causes liver failure. When deaths with liver failure started to accumulate, the FDA held an emergency meeting among senior managers. At this meeting, in which it did not include its safety officers, it announced that the drug was safe — but by referring to a study that it knew was fraudulent [7]. The FDA's Commissioner, Andrew von Eschenbach, prohibited FDA scientists from discussing Ketek outside the agency [2]. Despite the knowledge that the drug was dangerous, the FDA did not deregister Ketek.

When FDA scientists find signs of serious harms, they are often overruled and intimidated by their superiors, and bullied into silence. Their superiors may have their own interests in pleasing drug companies to the detriment of patients; for example, many bosses at regulatory agencies obtain extremely well-paid jobs in the industry after they retire or leave.

There is evidence suggesting that the temptation of insider trading can result in the agency overruling the recommendations of its own experts and advisory committee not to approve a drug [2]. The situation was so bad that, in 2009, eight FDA scientists wrote to President Obama about widespread corruption in the FDA at the highest levels, including several commissioners [8].

In 2012, it was revealed that the FDA had installed spyware on

COMMENT

Anonymous authorship may reduce prescription drug deaths

PETER C GØTZSCHE

Anonymous sources are used by journalists when it is important Anonymous sources are used by journalists when it is important to protect whistleblowers from repercussions. Healthcare is heavily influenced by vested interests which are often financial, but academic prestige and protection of guild interests also play a major role. If anonymous authorship is not allowed, may potential whistleblowers would prefer to keep quiet, even though their stepping forward would serve the public interest and might save many lives, particularly by reducing prescription drug deaths. This is especially important since drugs are the third leading cause of death in the Western world.

Keywords: authorship ethics, anonymity, whistleblower, transparency, prescription drug deaths

I am a staunch supporter of transparency and accountability in everything humans do, which includes mentioning names, and I have explained why [1]:

ave explained why [1]:

"My preference is to mention names because people should be held responsible for their actions and arguments. If they do something laudable, they would be disappointed if they were anonymous, but it must work both ways. If I concealed the names when people did something reproachable, or sustained an erroneous belief, I would be inconsistent, and my readers would try to guess anyway who they were. Science is not about guess work, which is another reason why I prefer to mention names. However, It is fair to point out that when I name a person for something he or she should not be proud of, there are thousands of others who have done the same or share the same beliefs."

However, this general rule comes with exceptions. Healthcare

Author: Peter C. Gotzsche, (pxgl/scientificfreedom.dk), Institute: for Scientific Freedom, 2970 Harsholm, DENMARK.

To one: Getzsche PC. Anonymous authorship may reduce prescription drug deaths. Indian J Med Ethics. Published online first on June 10, 2022. DOI: 10.20529/JJME.2022.041

Manuscript Editors: Trudo Lemmens, Sandhya Sr Peer Reviewer: Two anonymous peer reviewers

is heavily influenced by vested interests, which are often financial, but academic prestige and protection of guild interests also play a major role.

If anonymous authorship is not allowed, many potential whistleblowers will prefer to keep quiet about what they know, even though it would serve the public interest and might save many lives if they stepped forward. This is because they know pretty well what the consequences could be of speaking out [2].

It is usually highly stressful to become a whistleblower and cases in the West take five years, on average, to be resolved [3], in a book about his own whistleblowing. Peter Rost, a global vice president of marketing for Pfizer, explained that "Pharmacia's lawyer clearly thought that anyone who tried to resolve potential criminal acts within the company and keep his job was a mental case."[4]

Rost described how things went for 233 people who blew the whistle on fraud [4] — 90% were fired or demoted, 27% faced lawsuits, 26% had to seek psychiatric or physical care, 25% suffered alcohol abuse, 17% lost their homes, 15% got divorced, 10% attempted suicide and 8% went bankrupt.

Unfortunately, as far as I know, it is only in the United States that whistleblowers may get rewarded to a substantial degree that allows them not to worry — at least not financially—that they might never get a job again.

I have pointed out in my writings over the years that drug companies beat all other industries in terms of serious crime, bribery and corruption. Furthermore, drug regulatory agencies are also complicit in why we have a broken system for drug use [2]. Drug regulators are consistently willing to award the benefit of scientific doubt to manufacturers rather than patients and they have become more permissive in recent decades. This has resulted in increasing numbers of drug withdrawals after marking, followed by reports to the regulatory agencies of serious adverse events [2].

An example of egregicus regulatory permissiveness was the case of rofecoxib (Vioxo), an arthritis drug. Based on its mode of action, it was expected that rofecoxib would greatly increase the risk of thrombosis, and the United States Food and Drug Administration (FDA) had serious concerns about the drug when it came to them for approval [2]. However, despite worrisome evidence in the application, the FDA

REVEALING THE DIABETES SCAM

Thirty-seven million Americans have diabetes. which shaves eight years off their lifespan. Diabetes (type 2) is completely reversible in a matter of weeks without any medications at all.

This fact is **covered up** by the allopathic medical system so they can keep 11.3% of Americans sick and dependent on an average of eight Rx drugs, as lifetime customers.

Medical professionals, hospital administrators, government officials, health insurance executives, pharmaceutical executives, and medical advocacy organizations are all complicit in this scheme.

ttps://en.m.wikipedia.org

People enjoying the winter weather outdoors in Helsinki, Finland

Humans are sensitive to winter cold, which compromises the body's ability to maintain both core and surface heat of the body. [30] Slipping on icy surfaces is a common cause of winter injury.[31] Other cold injuries include:[32]

- Hypothermia Shivering, leading to uncoordinated movements and death.
- Frostbite Freezing of skin, leading to loss of feeling and damaged tissue.
- Trench foot Numbness, leading to damaged tissue and gangrene.
- Chilblains Capillary damage in digits can lead to more severe cold injuries.

Rates of influenza, COVID-19 and other respiratory diseases also increase during the winter.[33][34]

Bombshell Report: COVID Vaccines Causally Linked to Increased Mortality - ...

Readers added context

There is no evidence COVID-19 vaccines are linked to 17 million deaths. Excess mortality has been directly correlated to COVID-19 infection, not vaccines. England for example has 63 vaccine deaths and 189,505 COVID-19 deaths. Australia has 14 vaccine deaths.

STOP THE TYRANNY OF THE CORONAVIRUS COVID-19 PANDEMIC AND VACCINES

Individuals or allied groups, institutions, organizations, or groups of individuals are killing innocent people living on this earth for their selfish ends by injecting poison manufactured of toxic and chemicals metals into humans psychologically and, indirectly and forcibly, on the pretext of coronavirus COVID-19 vaccination.

Only those innocent people know the pain caused by the coronavirus vaccine. The coronavirus COVID-19 vaccine has murdered many innocent people, and many more are being massacred.

The greatest treachery is committed against humankind. What the innocent people did wrong was whether they were born on this natural earth or were born among the rich elite who live here wrong. What kind of heart nature has given to people like Bill Gates is the same form of heart that nature has given to innocent people who have died and are dying due to the vaccine. But people like Bill Gates are using their money power to use their political strength to cheat in the name of

Pierre Kory, MD MPA ♥ @PierreK... · 15h Despite the censorship, more and more doctors are seeing the wave of vaccine injuries.

Recently I learned that a hospital is experiencing a blood shortage because their vaccinated staff doesn't want to donate out of fear their blood might harm patients.

We are witnessing the destruction of our nation, our justice system, and the most egregious election interference in our nation's history.

If you aren't angry, you aren't paying attention. It's time for people to wake up and develop a sense of urgency.

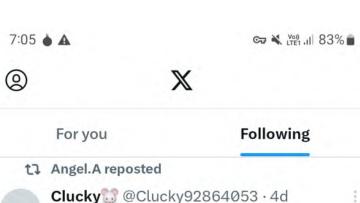

There is nothing to be happy about in America anymore; and people who say there is are lying to you.

Wake up. #Trump2024 #MAGA

Shawn Hawkins @ArmedPatriot45 · 5d Here's one person that's glad this angry, manipulative bully is no longer around to harass & intimidate her & others into voting how she & her ilk wanted!

Are there at least term limits in hell??

Ezra Levant ★ ● @ezralevant · 4h Last year, peaceful truckers opposing Covid lockdowns were arrested and jailed.

Today, pro-Hamas extremists riding around in trucks — well, the police wouldn't dare to arrest them. The mayor is an Islamist, as are the two MPs. These are Trudeau's voters.

This is the innocent woman ruthlessly killed and tortured by Hamas militants today.

Her body was paraded in the back of a pickup truck in her underwear while men spat on her.

Her name was Shani Louk and she was a German citizen attending a music festival to promote peace near the Gaza border.
